SKILLS SUMMARY

- **Programming Languages:** Python, C++, HTML5, Javascript, Typescript, CSS, Bash
- **Frameworks:** ReactJs, NextJs, Express.js, FastAPI, Node.js
- **Libraries:** Framer motion, Shadcn, MUI, Zod, TRPC, Axios, Zustand, NextAuth
- **CSS Frameworks:** Tailwind CSS, React Bootstrap
- **Software & Tools:** Figma, Canva, Git, Docker, LaTeX
- **Database:** MongoDB, Turso
- **Soft Skills:** Detail-oriented, Creative, Adaptability

EDUCATION

- **Bennett University - The Times Group** Greater Noida, India
Bachelor of Technology - Computer Science and Engineering; CGPA: 8.76 Sep 2021 - June 2025

EXPERIENCE

- **Thothica** Delhi, India · Remote
Frontend Developer (Full-time) July 2024 - Present
 - **beta.thothica.com:** Contributed to the development of Thothica's no-code, AI-driven research tool, aimed at revolutionizing qualitative research for academics and researchers by providing advanced search and summarization features for large archives such as the Library of Congress. Collaborated with the design team to create responsive, accessible UI components using Next.js and Tailwind CSS, focusing on reusability and consistent platform styling.
 - Developed a dynamic search bar and integrated front-end components with tRPC for seamless communication with the back-end, enhancing data retrieval and user result display.
 - Implemented lazy loading and code splitting to ensure optimized performance and a smooth user experience across the platform.
- **Lyfelynk.in** Delhi, India · Remote
Frontend Developer (Full-time) Feb 2024 - July 2024
 - **lyfelynk.in:** Developed a blockchain-powered digital health locker for Lyfelynk, targeting to cater to over 50 crore ABHA users. The platform securely stores and manages health records using blockchain technology. Led the design and development of the web application and landing page using React, Tailwind CSS, and Shadcn, creating reusable components and a cohesive theme.
 - Integrated AI models with blockchain via ICP, using Axios for AI communication and Zod for form validation, enhancing document analysis and improving the overall user experience.
 - Utilized TanStack Table, localStorage, and responsive design principles to streamline health analysis features and improve the platform's usability.

PROJECTS

- **Promptly:** Developed A modern AI prompt-sharing platform built with Next.js, MongoDB, NextAuth, and TailwindCSS, NextAuth for Google authentication, CRUD operations, user profiles, search functionality, and responsive glassmorphism design.
- **URL Shortner Webapp:** A secure URL shortener built using Next.js, tRPC, TypeScript, Tailwind) with NextAuth Google authentication, featuring date-based URL validity, click analytics visualization using Chart.js, real-time notifications via web sockets, and comprehensive click tracking with protected URL access.
- **SuiteX:** SuiteX is an AI-boosted business suite for enhanced team collaboration and productivity. Built with Next.js, it integrates smart scheduling, automated document management, and video conferencing, all powered by AI insights to streamline workflows and optimize team performance.
- **Various Landing Pages & Websites:** **AI Society BU** (alternate), **LyfeLynk**, **Uphoria 2024** - Engineered modern landing pages using Next.js, React, Tailwind CSS and shadcn/ui, delivering high-performance branded experiences for university organizations and startups.

ACHIEVEMENTS

- **Finalist, Kavach Cybersecurity Hackathon:** Selected as one of the **Top 5** teams from around 4000 teams across India to develop an AI Powered Spam Detection Application
- **Top 100 Worldwide, IBM TechXchange Pre-Conference watsonx Hackathon:** Place Top 100 out of 3000+ teams worldwide by creating SuiteX, an AI-powered business suite designed to streamline workflows, reduce manual effort, and boost productivity.
- **Winner, Industry Hackathon:** Nom-Nom, Cut calories, not taste. App to plan meals and focus on health. Solved challenge for an actual company.
- **Relevant Certification:** The Fundamentals of User Experience (Infosys Springboard)

EXTRACURRICULAR

- **UI/UX Head — Mobilon BU (Aug 2023 - May 2024):** Mobile Technologies Club at Bennett University. **Role** included skills such as Design Leadership, Project Collaboration, User-Centric Design. **Used** - Figma, Canva mainly.
